Los Angeles Regional Water Quality Control Board

January 30, 2015

Mr. Everett Bole  
DLA Installation Support - Energy  
8725 John J. Klingman Road  
Fort Belvoir, VA 22060

**SUBJECT: REVIEW OF REQUEST FOR CONFIRMATION SAMPLE FREQUENCY  
MODIFICATION FOR TREATED SOIL**

**SITE/CASE: DEFENSE FUEL SUPPORT POINT NORWALK, 15306 NORWALK  
BOULEVARD, NORWALK, CALIFORNIA (SCP NO. 0286A, SITE ID NO. 16638)**

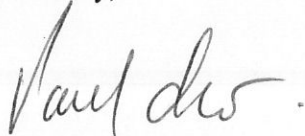

Dear Mr. Bole:

The California Regional Water Quality Control Board (Regional Board) received the technical document titled *Request for Confirmation Sample Frequency Modification for Treated Soil* (Request), dated January 16, 2015 and prepared by The Source Group, Inc., on your behalf, for the above referenced site. The Request proposes a total of 35 soil samples for each treatment stockpile that holds approximately 750 cubic yards.

We have reviewed the Request and concur with the proposed 35 soil samples for each treatment stockpile. As stated in the Request, submit a detailed sampling strategy by **February 15, 2015**. The Request also mentions that you will request a reduction to the sampling frequency after completion of treatment of three rows and assuming requisite analytical results demonstrate the process has met or exceeded the soil cleanup goals. The Regional Board staff would like to discuss further about the proposed plan to reduce the sampling frequency after the completion of treatment of three rows and assuming requisite analytical results demonstrate the process has met or exceeded the soil cleanup goals.

If you have any questions, please contact Mr. Paul Cho at (213) 576-6721 ([pcho@waterboards.ca.gov](mailto:pcho@waterboards.ca.gov)).

Sincerely,

Paul Cho, P.G.  
Site Cleanup Unit III
