Defense Fuel Support Point Norwalk
15306 Norwalk Boulevard, Norwalk, California; (SCP NO. 0286A, Site ID NO. 16638)**

Dear Dr. Yang:

The Source Group, Inc. on behalf of the Defense Logistics Agency – Energy (DLA) submits the enclosed application Form 200 to extend The Waste Discharge Requirements (WDR Order 90-148; WDR) issued on February 6, 2015, for soil treatment at the Defense Fuel Support Point Norwalk facility located at 15306 Norwalk Boulevard, Norwalk, California (the Site). As previously reported, the soil treatment at the Site has required an extension of the time limit to complete the treatment removed from the excavations illustrated on Figure 1.

Therefore the Defense Logistics Agency – Energy (DLA – Energy) is presenting this separate Application/ROWD to obtain a one-year extension to the operations under similar requirements to the initial WDR. The information submitted as part of the initial submittal (October 2, 2014) is generally still applicable as pertains to the proposed continued site operations and monitoring, although most of the soil excavation and treatment at the Site has been completed. Cleanup goals remain the same as the initial WDR.

We appreciate your processing of this application to resume soil treatment operations.

If you have any question, please call me at (562) 597-1055.

Sincerely,

The Source Group, Inc.
