Mr. Gensen Kai
California Regional Water Quality Control Board
Los Angeles Region
320 West 4th Street, Suite 200
Los Angeles, California 90013

Dear Mr. Kai:

In reference to General National Pollutant Discharge Elimination System (NPDES) Permit (NPDES No. CAG994004) CFN# CI-7585, please accept this letter as DLA's certification of the *Groundwater Discharge Monitoring Report – Quarter 4* of calendar year 2019 for the Defense Fuel Support Point (DFSP) Norwalk facility in Norwalk, California.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties submitting false information, including the possibility of a fine and imprisonment for knowing violations.

If you have any questions or need additional information concerning this document, please contact Ms. Carol Devier-Heeney at (571) 767-9813 or carol.devier-heeney@dla.mil.

Sincerely,

Subject: **GROUNDWATER NON-DISCHARGE REPORT - QUARTER 4, 2019**
NPDES No. CAG994004; Compliance File No. CI-7585
Defense Fuel Support Point, Norwalk
15306 Norwalk Boulevard
Norwalk, California

On behalf of The Defense Logistics Agency Installation Management - Operations for Energy, DM-FEE (DLA), The Source Group, Inc. (SGI) presents this Quarter 4, 2019 National Pollutant Discharge Elimination System (NPDES) *Groundwater Non-Discharge Report* for the Defense Fuel Support Point (DFSP) facility located at 15306 Norwalk Boulevard, Norwalk, California (Site).

SUMMARY OF REMEDIATION PROGRESS

Remediation systems at the Site include a groundwater extraction and treatment system (GWETS), soil vapor extraction systems, biosparge system, and a product removal system. The treatment of extracted soil vapors and groundwater at the Site has been conducted to address historical impacts within the entire former tank farm, former water tank, former truck fueling, and pump house areas.

No groundwater extraction wells were in operation this period. The non-discharge of any treated groundwater during Quarter 4, 2019 is being reported to comply with Section IX, Part A.2 of the Monitoring and Reporting Program (MRP). On October 1, 2019, DLA received approval from the Los Angeles County Sanitation District (LACSD) to discharge treated groundwater to the sewer under Industrial Wastewater Discharge Permit 22453 and the NPDES Permit No. CAG994004 for the facility was terminated in a letter dated January 3, 2020.

Should you have any questions or need additional information, please do not hesitate to contact the undersigned at (562) 597-1055.

Sincerely,

Walter Morales, P.E.
Principal Engineer

Neil F. Irish, P.G. 5484
Principal Geologist
