Mr. Nicholas Carros
DLA Installation Support – Energy
8725 John J. Klingman Road
Fort Belvoir, VA 22060

SUBJECT: REQUIREMENT FOR SOIL CLOSURE REQUEST WITH HUMAN HEALTH RISK ASSESSMENT

CASE/SITE: DEFENSE FUEL SUPPORT POINT NORWALK, 15306 NORWALK BOULEVARD, NORWALK, CALIFORNIA (SCP NO. 0286A, SITE ID NO. 16638)

Dear Mr. Carros:

Reference is made to the current soil treatment and closure activities at the above referenced site (Site), specifically for the eastern 15-acre parcel for land conveyance to the City of Norwalk. We understand that DLA Installation Support will request a shallow soil closure for the upper 10 feet soil. Since the Site's deeper soil and groundwater are contaminated with petroleum hydrocarbon waste, a human health risk assessment for review by the California Office of Environmental Health Hazard Assessment (OEHHA) is warranted. The closure request must include, but not be limited to, the following information:

1. Lateral and vertical extent of shallow soil for no further action determination.
2. Soil investigation and confirmation data that demonstrate soil within the area for no further action determination meets the site's soil cleanup goals.
3. Soil gas survey data within the area for no further action determination.
4. Current and planned remedial actions for deeper soil and groundwater.
5. Human health risk assessment for OEHHA review.

Therefore, submit the shallow soil closure report for the eastern 15-acre parcel by **May 15, 2016**.

If you have any questions, please contact Mr. Paul Cho at (213) 576-6721 or paul.cho@waterboards.ca.gov.

Sincerely,

Paul Cho, P.G.
Site Cleanup unit V
