Re: June-July 2010 Update on Property Access, South-Central and Southeastern Off-Site Areas, Defense Fuel Support Point Norwalk, 15306 Norwalk Boulevard, Norwalk, California

Dear Mr. Cho:

Pursuant to your request made in an email dated April 20, 2010, AMEC Geomatrix, Inc. (AMEC), is submitting this letter on behalf of SFPP, L.P. (SFPP), an operating partnership of Kinder Morgan Energy Partners, L.P. (KMEP), to provide an update on the progress made to obtain property access for a soil vapor monitoring program in off-site areas south and east of the Defense Fuel Support Point – Norwalk located at 15306 Norwalk Boulevard in Norwalk, California (DFSP; the site). The soil vapor monitoring program was requested by the California Regional Water Quality Control Board, Los Angeles Region (RWQCB) in its letter dated March 30, 2010. A work plan for installing a soil vapor monitoring network (the work plan) was submitted to the RWQCB on May 27, 2010. A meeting with the RWQCB was held on July 9, 2010 to discuss the work plan and approval of the work plan is pending.

As described in the work plan and SFPP's previous correspondence with the RWQCB, SFPP will obtain written authorization to access the necessary properties after the RWQCB approves the work plan. In preparation for obtaining written authorization to access the necessary private properties, a Right of Entry Permit was prepared and provided as Attachment B of the work plan. After receiving RWQCB approval to implement the soil vapor monitoring work plan, SFPP will contact the necessary property owners or representatives and use the Right of Entry Permit to obtain written authorization to access the necessary properties.

If you have any questions regarding this project, please contact Stephen Defibaugh of KMEP at 714-560-4802 or the either of the undersigned at 949-642-0245.

Sincerely yours,
AMEC Geomatrix, Inc.

Alex Padilla
