
Los Angeles Regional Water Quality Control Board

October 17, 2014

Mr. Everett Bole
DLA Installation Support - Energy
8725 John J. Klingman Road
Fort Belvoir, VA 22060

SUBJECT: REQUEST FOR REVISED REMEDIAL ACTION PLAN AND SOIL MANAGEMENT PLAN

SITE/CASE: DEFENSE FUEL SUPPORT POINT NORWALK, 15306 NORWALK BOULEVARD, NORWALK, CALIFORNIA (SCP NO. 0286A, SITE ID NO. 16638)

Dear Mr. Bole:

On February 7, 2014, the California Regional Water Quality Control Board (Regional Board) requested a final shallow soil closure report to be submitted by August 31, 2014 based on the January 29, 2014 presentation by Defense Logistics Agency (DLA) on soil remediation for redevelopment (copy attached). It was proposed that shallow soil excavation to top ten feet below ground surface at impacted areas where soil exceeded the site-specific cleanup goals (July 12, 2012) would be performed. However, we understand that DLA reevaluated the plan to haul the contaminated soil away and import new soil for reducing heavy truck traffic.

On October 2, 2014, Regional Board received DLA's application for the General Waste Discharge Requirements Order No. 90-148 for land treatment of petroleum hydrocarbon contaminated soil at the above referenced site. In order to modify the previously planned remedial measures, a revised remedial action plan and a soil management plan related to soil excavation and land treatment should be prepared for our review. Submit the requested technical reports to the Regional Board by **November 31, 2014**.

If you have any questions, please contact Mr. Paul Cho at (213) 576-6721 (pcho@waterboards.ca.gov).

Sincerely,

Paul Cho, P.G.
Engineering Geologist

SUBJECT: REQUIREMENT FOR SHALLOW SOIL CLOSURE REPORT

SITE/CASE: DEFENSE FUEL SUPPORT POINT NORWALK, 15306 NORWALK BOULEVARD, NORWALK, CALIFORNIA (SCP NO. 0286A, SITE ID NO. 16638)

Dear Mr. Bole:

On January 29, 2014, Regional Board staff, including Mr. Samuel Unger, Ms. Paula Rasmussen, Mr. Arther Heath, Ms. Thizar Williams and Mr. Paul Cho, met with you and Mr. Stuart Strum from DLA, and your consultant from Parsons, Mr. Redwan Hassan and Ms. Mary Lucas. During this meeting, DLA and Parsons presented planned and future activities related to the site's remediation and redevelopment.

It is proposed in the meeting that shallow soil excavation to top ten feet below ground surface at impacted areas where soil exceeded the site-specific cleanup goals (July 12, 2012) will be remediated to meet a No Further Action determination. A final shallow soil closure report is required, and based on your excavation schedule, submit the report by **August 31, 2014**.

If you have any questions, please contact Mr. Paul Cho at (213) 576-6721 (pcho@waterboards.ca.gov).

Sincerely,

A handwritten signature in black ink that reads "Paul Cho".

Paul Cho, P.G.
Engineering Geologist
