

Los Angeles Regional Water Quality Control Board

September 21, 2015

Mr. Nicholas Carros
DLA Installation Support – Energy
8725 John J. Klingman Road
Fort Belvoir, VA 22060

SUBJECT: REVIEW OF PHASE 3 EXCAVATIONS AND STOCKPILES SAMPLING REPORT

CASE/SITE: DEFENSE FUEL SUPPORT POINT NORWALK, 15306 NORWALK BOULEVARD, NORWALK, CALIFORNIA (SCP NO. 0286A, SITE ID NO. 16638)

Dear Mr. Carros:

On September 9, 2015, the California Regional Water Quality Control Board (Regional Board) received a technical document titled *Phase 3 Report and Request for Soil Reuse* (Report), prepared by Source Group, Inc. (SGI), on behalf of Defense Logistics Agency (DLA), for the above referenced site (Site). This Report proposes to reuse treated soil stockpiles for the Site's redevelopment, according to the following technical documents prepared by SGI:

- *Revised Soil Management Plan: Treatment Cell Operation and Site Excavation*, dated November 5, 2014
- *Soil Remedial Action Plan*, dated November 30, 2014
- *Addendum to Soil Remedial Action Plan*, dated December 10, 2014

On January 7, 2015, the Regional Board requested that analytical results should be submitted for each treated soil stockpile before reuse. On February 6, 2015, the Regional Board enrolled the Site in General Waste Discharge Requirements (GWDR) Order No. 90-148 for onsite bioremediation treatment of contaminated soil with petroleum hydrocarbons and its reuse. The Report presents confirmation soil sampling results for the reuse of soil from the following treated soil stockpiles:

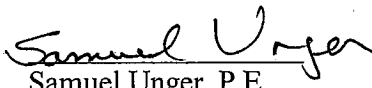

Stockpiles	Volume (cubic yards)	Number of Confirmation Soil Samples
80002-A	758	35
80002-B	760	35
80002-C	832	35
80002-D	713	35
80002-E	815	35
80006-A	731	35
80006-B	761	35

80006-C	731	35
80006-D	791	35
80006-E	775	35

Based on the above confirmation soil sampling results of the Phase 3 treated soil stockpiles, concentrations of hydrocarbons and volatile organic compounds are below the Site's soil cleanup goals. We have no objection to the proposed reuse of a total of 7,667 cubic yards of soil from the stockpiles 80002-A, 80002-B, 80002-C, 80002-D, 80002-E, 80006-A, 80006-B, 80006-C, 80006-D, and 80006-E.

If you have any questions, please contact Mr. Paul Cho at (213) 576-6721 or paul.cho@waterboards.ca.gov.

Sincerely,

Samuel Unger, P.E.
Executive Officer
